For Title Insurance with Triple  
Damages

Dear Sir

I was electrocuted in  
an apartment after receiving  
activation notice of a Research  
fellowship. Voices were in the  
apartment that I could not leave  
they asked me what I had and  
they would give me. I received  
a Title insurance to insure  
my physical safety and that  
of three other persons. That's what  
there is for and nothing else <sup>the voice</sup> <sup>the sound</sup>

I am applying for my Title  
Insurance with full damages.

Now I hear constant voices using  
the father language <sup>the</sup> <sup>man</sup>

I have been told never to go near

1. Black people
2. Ghetto people
3. Poorer people etc.
4. Southern people

The Voice said what I had was to be used by upper income <sup>white</sup> people but I could never be known and I must never use my name. The Bond covers me and three other people that I will name.

These persons have no right to invade my privacy or use anything as be in any decision making capacity.

There in valent is that of a conspiracy to subvert the intent of the Bond

ridiculous ideas. After insurance was to be paid immediately upon application. Please direct me who is to handle it.

I no longer think I wish to have lawyers. Although the voice said use 5% for legal fees and keep every thing.

I know what my Little Insurance is with triple damages

I don't want any of these people to even come near me again.

I am applying for a post office box so that instructions can be sent to me there.

Please see if you can have these voices stopped.

These voices are constant and threaten my life.

Although I use an identification number I don't ~~but~~ I think these voices may over hear.

The Bond is for life and is not transferable and all information must be listed under this Title.

This was an original statement. This Bond is neither transferable nor can it be cancelled neither can the amount be reduced.

Yours Truly

Legislative Branch:

Will you please file for legal action against these people. They sound like a bunch of thugs.

This Massive Psychological Assault  
These agencies that receive Federal funds shouldn't feel that their employees can take part in anything like this.

These persons knew exactly  
who I was. They said never  
use your name and you will  
never be known; nothing in  
your life can be used.

Instead of a P. O. Box  
I am going to a Bond  
ag. to see if they will  
file my insurance claim  
with your agency.

That ~~the~~ was the original  
suggestion
